

Moving forward with

DELL APEX

Backed by the knowledge and services of Advizex.

Simplified cloud experiences start by working with an Advizex team member to help you select the right Dell APEX solution for your specific business needs.

Select technology

Advizex can guide you to the best Dell hardware and software solutions for your business's specific IT needs, now and going forward.

Choose a service

Advizex offers a range of managed services to help customers optimize workloads, accelerate innovation and protect their organizations.

Predict payments

Simplified pricing for custom configurations and an 85% billing cap help you budget and understand upcoming payments, even with variable usage.

Select deployed capacity

Advizex will help you establish your fixed Committed and variable Buffer Capacities to accommodate your current and future needs.

Meter Usage

Each payment reflects your fixed and variable capacities. Buffer Capacity usage is regularly measured on a component level using automated tools installed alongside equipment.

Earn lucrative incentives

Drive down costs with upfront payments when you select higher levels of Committed Capacity and longer usage periods to take advantage of referral or resell options for additional incentives.

DATA STORAGE SERVICES

With Dell APEX, you get the best of both worlds.

PRIVATE CLOUD

Single rate transparency and no excessive egress fees

High performance and designed for 99.9999% availability*

Helps meet data localization, regulatory and audit requirements

*Based on hardware availability on common underlying platform configurations. Actual hardware availability may vary.

— AND —

PUBLIC CLOUD

Simplified operations

Increased agility

Accelerated innovation
